

## Merritt College Counseling Department

Articulation Notes  
April 8, 2003

1. **New Artic w/ Humboldt State** Recently completed new artic agreement w/ HSU for our ANTHR 1 & 1L w/ their ANTHR 110 & 111. Posted on ASSIST 4/4/03.
2. **Web Site Update** I've updated the L&S links on the UC Berkeley page by adding a link to a page w/ all L&S majors (major prep requirements)
3. **USF Transfer Update** USF has a new Core Curriculum that will go into effect for new undergraduate students starting in the Spring of 2003. Until we develop a new in-house agreement, I've replaced the link to our old in-house artic agreement with a link to the agreement on the AICCU Articulation Site. I've also posted a link to the new Core Curriculum on the USF page of the Counselor Web Site. Note that both the English and Math requirements call for validation of competency by a USF Placement test.
4. **UC Davis Admissions Update** Students who do not have TAAs with UC Davis for Winter 2004 are asking about applying for admission through the regular admissions process. Davis will be enrolling very few new students who do not have TAAs for Winter 2004 (starts January 2004) and no new students for Spring 2004 (starts April 2004). Students may try to gain admission to one of the few nonTAA spots for Winter 2004 by appeal only. Appeals must be submitted by July 1-31, 2003. They will consider admissions appeals in all majors EXCEPT: Computer Science, Engineering (all majors), Exploratory, and Pre-Design. An appeal for Winter 2004 must include the following: 1) The University of California Application for Undergraduate Admission, including the Personal Statement and the filing fee or fee waiver, and 2) A letter of appeal stating the reasons the student would like to be admitted for Winter 2004 rather than waiting until Fall 2004. The appeal materials must be sent directly to:

Undergraduate Admissions and Outreach Services  
University of California  
One Shields Avenue  
Davis, CA 95616  
Attn: Winter 2004 Appeals

As there will be very few appeals granted for Winter 2004, students might want to consider signing TAAs for Fall 2004 to assure their admission to UC Davis. The TAA criteria for the 2004-05 academic year will be available in a few weeks.
