TRANSFER CENTER REPORT

February 4, 2008

- **Transfer Center Bulletin** will be emailed (FAS and student versions) and printed on Friday, February 7th. The Bulletin will have the current Transfer Center calendar as well as information for students who have applied for Fall 2008 admission to the UC and CSU (e.g., transcript requirements, etc.).
- **UC Transfer Panel – “The Other UC’s” – April 10th** - all of the out-of-area UC campuses have been invited to present on their campuses
- **Transfer Student Luncheon** – tentative date(s)- May 15th or May 16th
- **IGETC and CSU GE Certification** - Please ask students who will be completing their IGETC or CSU GE to schedule an appointment *even if they have not yet been admitted*. If they will be using their high school foreign language coursework to satisfy the “Language Other than English” requirement for IGETC, they must bring official high school transcripts to their appointment. If they will be using coursework from other colleges to satisfy any IGETC and/or CSU GE certification requirements, they must bring official transcripts unless the transcript is already on file at the District Office.

- **East Bay Career Advancement Academy**

This academy is a focused-one semester, basic skills program designed to increase performance levels in reading, writing and math. Adults between the ages of 18 and 30 are eligible for the academy, regardless of past educational experience. A high school diploma is not required.

Prospective students receive assistance with registration and enrollment. The academy also provides support services, including books, tuition assistance, counseling and financial aid. Through the academy’s community partners, students can find referrals for transportation, childcare, housing, career assessment and other services.

Once enrolled in the academy, students are placed together in groups of no more than 25. The program is designed to provide opportunities for successful transition to careers in fields such as allied health and human services, automotive technology, construction and building trades, and biotechnology.

This semester’s Merritt College Allied Health cohort will be meeting at Youth Uprising. The curriculum includes Math 253 (instructor: Jason Holloway), Coun 57 (instructor: Tanya Ilarde), Nutrition 10, and English 267A.
