Articulation Notes
September 11, 2006

UC

Berkeley: New artic between our SPAN 1A-B & 2A-B with Berkeley's SPAN 1, 2, 3, & 4 but only for the Latin American Studies major, not for the Spanish major. We have also updated our agreements for 06-07 and they are posted on ASSIST.

Riverside has updated and posted on ASSIST the 06-07 artic agreements.

Santa Cruz has revised and posted on ASSIST the 06-07 artic agreements. Changes are: 1) MATH 22 articulation now also acceptable for MATH 23A; 2) Politics major now requires two lower division courses; 3) as part of the Campus General Education Requirements, students must now take two courses in composition, C1 and C2.

Santa Barbara has revised and posted on ASSIST the 0607 agreements. Note that Transfer Admission Agreements (TAAs) continue to appear as the first options at the top of the 'by major' list. Note also that the College of Engineering TAA applies to all five majors (Chemical Engineering, Computer Engineering, Electrical Engineering, Mechanical Engineering, and Computer Science, B.S.). The format of the College of Engineering TAA follows the same format as the L&S TAA and directs students to the actual major preparation agreements for the required major preparation courses.

CSU

San Jose has posted new requirements for Nursing major on ASSIST (eff S07): last 30 semester or 45 quarter units of coursework calculated in the score for entry to the School of Nursing will be limited by 1) all courses must have at least 3 semester or 4 quarter units of academic credit--one and two semester unit courses (and their quarter unit equivalents) are excluded; 2) a course that has been repeated to improve a grade is excluded--all courses included in the 30 semester unit (and their quarter unit equivalents) calculation must be taken for the first time.

Cal Poly SLO has updated and posted on ASSIST the Math and Biology major prep agreements.

Sacramento has updated and posted on ASSIST the 06-07 Nursing major agreement.

Los Angeles has updated and posted on ASSIST the 06-07 agreements.

Bakersfield has revised and posted on ASSIST the Nursing major prep agreement.

East Bay has updated and posted on ASSIST the 06-07 agreements.

Monterey Bay has updated and posted on ASSIST the 06-07 Transfer Agreement and Liberal Studies major prep.

Independents

University of Phoenix: Note the following from Chico State: Chico State has recently reviewed the Mathematics courses from University of Phoenix and has determined that none may be used in CSU GE and/or for admissions purposes for our campus. None of these courses lists Intermediate Algebra as a pre-requisite; we require that Intermediate Algebra (or higher) be a stated pre-requisite in order for a Math course to be used in GE and/or admissions. In addition, a review of the course outlines for MTH 208 and 209 (College Mathematics I and II) indicates that the content is more in line with Beginning Algebra and Intermediate Algebra respectively, rather than the "college algebra" cited in the catalog description. For these reasons we request that California Community Colleges refrain from using any UPHX Mathematics course in a CSU GE Certification sent to Chico State.

Counselor Web Site

- Link to CSUMB Liberal Studies lower division GE and content requirements
- UC has developed new web site to show major prep transfer paths common to all campuses. Has also developed UCTransfer.org, portal w/ general transfer information. Link to both on UC General Advising page.
