

General Education Matrix for Transfer Students

Many of the Mills College core curriculum requirements can be fulfilled using transfer credits. To assist students transferring from the California community college system, Mills has constructed our core curriculum requirements around the IGETC (Intersegmental General Education Transfer Curriculum) used by the UC and CSU systems.

Students who have NOT completed IGETC for UC and CSU can use the table below to assist with planning. Remember that students are able to transfer to Mills at any time. There is no minimum number of units required to transfer, and core courses can be completed at Mills.

Mills Core Curriculum Area	IGETC Alignment
Written and Oral Communication	Area 1A: English Composition
Critical Analysis	Area 1B: Critical Thinking
Quantitative Literacy	Area 2: Mathematical Concepts and Quantitative Reasoning
Scientific Inquiry of Natural Systems	Area 5: Physical and Biological Sciences
Creativity, Innovation and Experimentation	Area 3: Arts and Humanities
Language Other Than English	Area 6: Languages Other Than English OR passing a proficiency examination at Mills College
International Perspectives	Area 4H (we strongly recommend a class with an international focus)
Race, Gender and Power	Must be taken at Mills College
Community Engagement	Must be taken at Mills College (can be taken concurrently with another requirement)

Students who have completed IGETC for UC and CSU have completed the Mills core requirements, with the exception of a Race, Gender and Power class. This course must be completed at Mills.

Students who are transferring from an out-of-state community college or from another four-year institution are encouraged to contact the Office of Undergraduate Admissions and make an appointment for an unofficial transfer of credit evaluation to review their transcripts.
