

## Merritt College Counseling Department

Articulation Notes  
September 23, 2002

1. **9/18/02 CSU Counselor Conference at CSU, Hayward** The most prominent issue that arose was the phasing in of a 60-unit minimum requirement for admission. Several campuses have either already gone to it or are going to it soon. Chico has already implemented this requirement for (I've bookmarked their transfer admission requirements on the web page on the Counselor Web Site) and San Diego will require it for F03 transfer admission. While we were there, there was a report that the CSU Executive Board has agreed to implement a system wide 60-unit upper division transfer admission requirement. No one was certain of the effective date but there was some suggestion that it would be for F04. Nevertheless, it would seem sensible to start advising our CSU-bound transfer students to complete 60 units instead of the 56 that are now in place. Certainly, it's always wise to contact the specific campus of interest (but you knew that) for their current and future admission policies.
2. **PCCD Forms Review Meeting 9/21/02** Initial meeting to review input on proposed revisions from PCCD schools. Reviewed about ½ of forms and rescheduled for 9/30/02 to complete review. Until forms revised, continue using current ones along w/ current procedures.
3. **Revision of UCSB artic agreement** Current agreement currently under review. Any changes will be announced and posted on ASSIST.
