

Merritt College Counseling Department

Articulation Notes
May 13, 2003

1. **UC Davis Engineering Change** As of Fall, 2003, ENGIN 5 will no longer be offered at UC Davis. This notation should appear on ASSIST soon and you should note the change on the UCD Engineering grid (I've made the change on the grid that's posted on the Davis page on the Counselor Web Site).
2. **Web Site Update** We were notified of a new website called www.transfer.com. I checked it out and much of the information is a repeat of what we already have (both in our resource folders and on the Counselor Web Site). However, they have a good link that allows you to search each CSU and UC campus for the majors they offer. I've posted a link to this on each of the General Advising Information pages of both the UC and CSU pages (called "Search for Majors – All Campuses"). I've also pasted a link to all campus websites on both the CSU and UC General Advising Information page.
3. **Mills Still Open for F03** It's not too late to apply for the fall '03 term at Mills College. If you know of students who are interested in applying, encourage them to do so. They especially encourage students to visit the campus sometime during the week of June 2. Admission counseling appointments, financial aid counseling appointments and tours will be available every day. Evening appointments with admission and financial aid staff will be available Tuesday, June 3 from 5-7 pm.
