

## Merritt College Counseling Department

Articulation Notes  
September 13, 2004

1. **New UOP Agreement** We've revised the artic agreement with UOP. It is now called the Master List of Transferable Courses and there's a link to it on the UOP page. There's also a link to the Pharm.D. artic agreement which can also be used for the courses that appear in the School of Dentistry admissions pattern (there's now a link to the School of Dentistry home page on the web site).
2. **UC Minimum Eligibility Courses Link** ASSIST now displays all courses from each community college that meet the UC Minimum Eligibility requirements. There's a link to this on the Merritt College page.
3. **Monterey Bay Agreement Updated** The artic agreement for CSUMB has been updated and posted on ASSIST. Note they have added a new music major and we are in the process of developing articulation for it.
4. **CSU Spring Admissions** With the new budget, many of the proposed cutbacks at CSU have been eased and several campuses are now open for S05 admissions. Check CSU Mentor for current admissions info.
5. **UCSF School of Pharmacy** The artic agreement has been updated for 04-05 and posted on ASSIST. Also, the phone number to call (and to give to students to call) for current information and advising is (415) 476-2732.
6. **New USC Agreement** The new artic agreement w/ USC has been completed for the 04-05 year and is posted on the USC website (linked on the Counselor web site). There are some changes in format and some previous USC courses are no longer being offered so you may want to familiarize yourself with it.
7. **Computer Literacy Challenge Exam** As you know, Ron Grant is the new Department Chair for CIS. I've made that change to the information sheet outlining the criteria and procedures for taking the credit by exam to clear the Computer Literacy requirement for the AA/AS GE and posted it on the Counselor web site.
8. **Hayward Update** A couple of things came up about CSUH during the busy advising period. 1) If a continuing student misses more than 2 consecutive quarters (including summer), they must then reapply for admission (including \$55 application fee plus transcripts). 2) If a new/transfer student is accepted for admission and then wants to defer/postpone attending, they may do so for 1 quarter (including summer) by completing the "Applicatoin Update" form. This form, along w/ many other Admissions, Financial Aid, and Record forms, is found on the CSUH website. I've put a link to them on the CSUH page called "Enrollment Services" (follow the directions in black print under the link).
9. **COUN Courses on UC TCA** We got the good news that both new Counseling courses, COUN 24 & 57 have been approved for the UC TCA. There are still a couple of courses being reviewed so I haven't printed the final 04-05 TCA yet, but COUN 24 is already on ASSIST and COUN 57 should appear soon.
