

Information for Pre-Nursing Students 2016-2018

Minimum Academic Requirements for Entrance into the Nursing Program (subject to change)

- Students must pass (or have in progress) all **eight prerequisite courses** (see below) with a minimum **3.25 GPA**.
- Students must have a minimum **3.25 cumulative GPA**.
- The minimum passing grade in Human Anatomy and Physiology is a 'B'.
- Students cannot repeat previously **passed** prerequisite courses in order to raise their GPA (this parallels University policy). Exception: repeated courses that were initially taken more than five years ago.
- Students who do not pass **more than one class** required for the nursing major (i.e., prerequisite, co-requisite, or Nursing) are disqualified from being in the nursing program.
- Freshmen who satisfactorily complete all prerequisite courses by the end of the spring semester of their freshmen year will receive priority placement into a fall nursing program entering cohort. Students who complete prerequisites during the summer will be placed into fall nursing courses on a space available basis.
- Initial eligibility for freshmen to be admitted into the program (Sophomore1) will be determined after their first semester's prerequisite grades.
- Before entering the Nursing program, all students must be medically cleared in order to ensure the safety and well-being of patients encountered in the clinical setting.
